

District-level Workshops on 'Building Capacities for Taking Forward SDGs in Nagaland'

August 31- September 22, 2021

Taking forward the Sustainable Development Goals (SDGs) in the state, the SDG Coordination Centre (SDGCC), a team of the Planning & Coordination Department carried out the first SDG Localisation and Integration workshops in all twelve districts of the state. These workshops were held from August 31 – September 22, 2021 reaching out to approximately 350 district-level heads of offices and officials. The aim of these workshops was to sensitize and build capacities of the Head of Offices, and district-level officials of all the relevant departments on the implementation of the SDGs.

The SDGCC team and also resource persons comprised the following:

1. Smt. Abilo Y. Humtsoe, SDG Officer
2. Shri Phyobemo Lotha, SDG Officer
3. Smt. Zitin Munshi, SDG Consultant

The workshop in all twelve districts comprised two technical sessions. The first session focuses on understanding the relevance of SDGs from the district-specific context, SDG institutional mechanisms, SDG monitoring framework, and indicators for monitoring the SDGs at the district level and the way forward. The second technical session comprised interactive exercises for identifying the priority areas and viable local-level solutions for the district.

Glimpses from the district-level workshops in different districts:
